Acting Chief, Research & Planning Staff

Monthly Personnel Statistics for Comptroller

1. On Wednesday, 30 July, I communicated with Mr. Saunders by telephone pursuant to my discussion with you in connection with the data the Comptroller's Office desires from us on a monthly basis. Mr. Saunders indicated that he was under the impression that the matter had already been resolved, and seemed to feel that further discussion on the point would be superfluous. Accordingly, I indicated that if he would rather indicate to us in a memorandum the specific data he would like to receive from the Personnel Office, this would be satisfactory. I pointed out, however, that we would appreciate being informed specifically as to the date desired, as we in Personnel are not clear on this point. Mr. Saunders indicated that he would forward such a memorandum.

2. The above information is furnished in order that you may have the background on this when you receive the Comptroller's memorandum.
